Nevermind

Teacher: Jamshid

YORDAM OLISH

Effektiv kod yozish

Samarali muhitda
ishlang (IDE, editor)

Avto-format kod &
shortcut lar ishlating

Avto to'ldiruvchilardan
foydalaning

settings va extension
lar bilan tanishing

Yoram olish

MDN ishlating

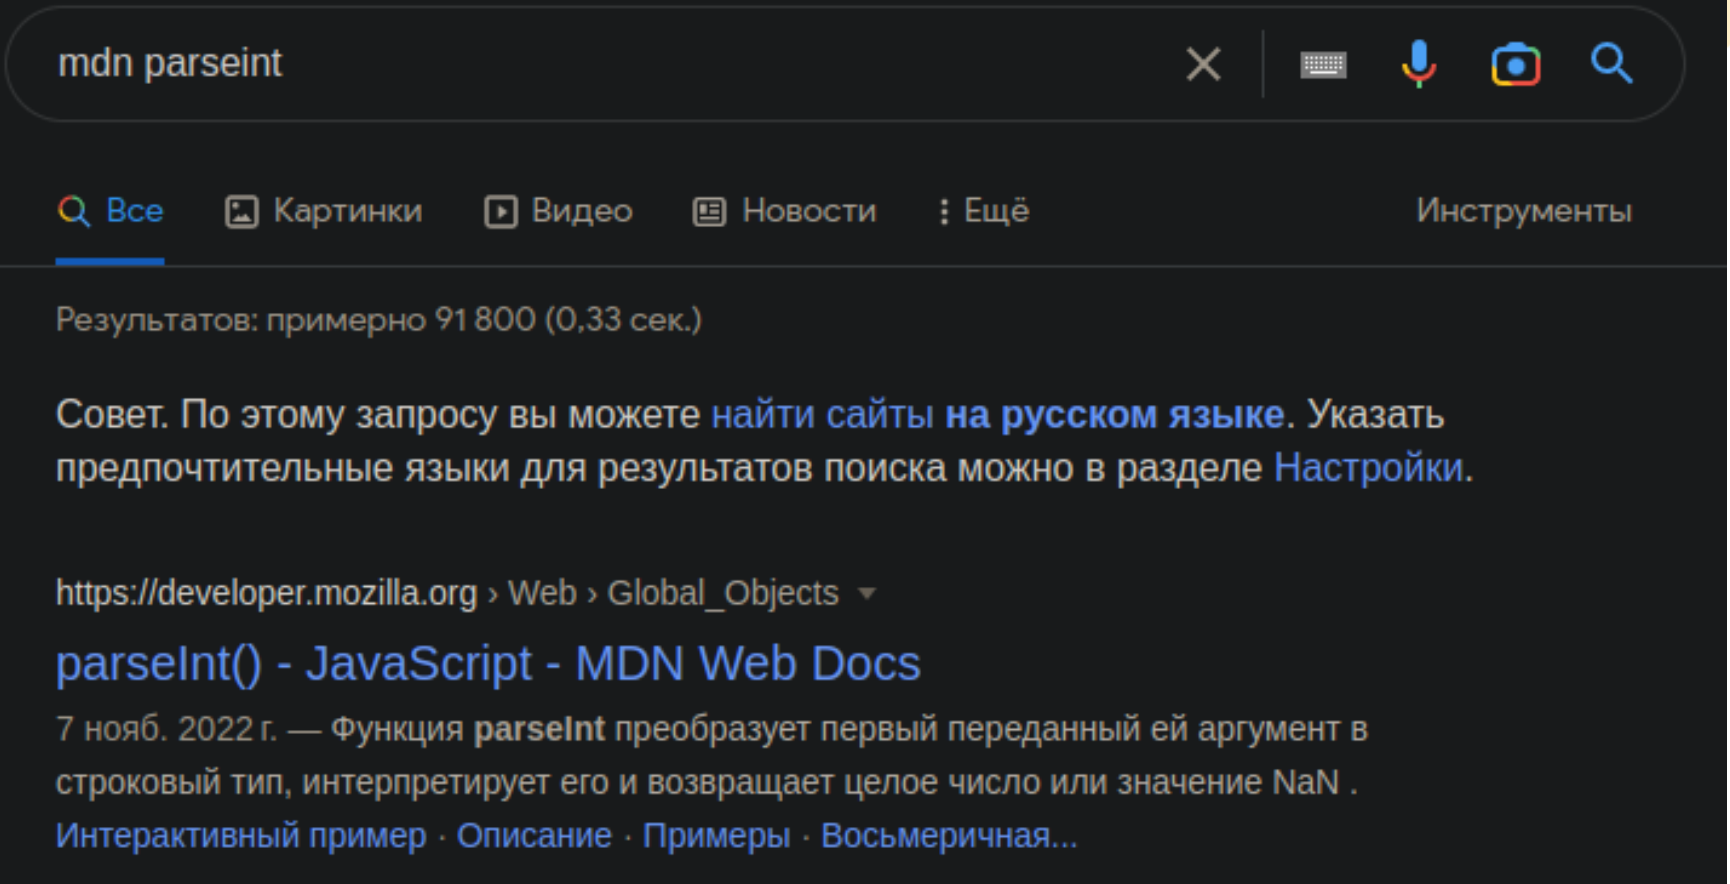

Qanday Google
qilishni o'rganing!
(juda muhim!)

To'g'ri va aniq savol
bering, boshqalarga
yordam bering

Urining va Yiqiling

Kodingizni qayta tekshiring

MDN WEBSITE

GOOGLING CORRECTLY

Javascript ni boshida qo'ying va ketidan muammoni tasvirlang

javascript convert string to number

How to convert a string to a number in JavaScript using the unary plus operator (+) The unary plus operator (+) will convert a string into a number. The operator will go before the operand. We can also use the unary plus operator (+) to convert a string into a floating point number. 2 мая 2022 г.
